

I am petitioning about the idea of having LPFM stations take priority over current stations, particularly AIR-1. AIR-1 is my favorite radio station, and I listen to it every morning. It is a positive influence to anyone who listens to it, bringing the message of Christianity in a fun and exciting way. The music is wonderful, the DJs are terrific, and everything about it is perfect! Many of my friends, family and other members of my community listen to AIR-1, and we would all be very angry if a new, LPFM station were to take priority over it. AIR-1 has such a positive influence on our community, informing listeners of upcoming family events, and how they can help the less fortunate within the community and around the world. If AIR-1 were to be taken off of the air, or to be given a second priority, I for one would be less informed about the going-ons around the Christian community. As a high school student, AIR-1 is a way for my friends and I to stay connected with the Lord, and to stay positive throughout the day when we do not have church. Please, do not give LPFMs priority over other stations, especially AIR-1.
